

### Value to Sales

- G-P’s global Employer of Record (EOR) is ideal for small headcount countries when **One View** is not a good fit (i.e., the customer does not meet minimum requirements of 200 EEs, and 3 countries)
- **G-P has no minimums.** We can help with 1 worker in 1 country, a small team, or disbursed populations across many countries.
- Our data automatically syncs with **One View** for customers who have Connect.
- As the EOR, G-P takes on **100% of the risk** associated with local tax & labor laws.
- Close more global deals by **engaging with G-P early in the sales process.**

## Sales Fact Sheet:

G-P’s global Employer of Record (EOR) solution, allows your customers to hire around the world without the need to establish a legal entity. G-P, as the EOR, serves as the legal employer while your customer manages and directs the daily tasks of their team members.

G-P manages the **onboarding, payroll, benefits, and more in 187 countries!**
