# UKG Pro Integration

Easily manage your global workforce by integrating UKG Pro with G-P's global employment products.

## Feature overview

G-P's Global Growth Platform integrates with UKG Pro and many other HCM solutions, making it easier to hire, pay, and manage your global teams with a connected tech stack.

## Problem solved

Employee data is often stored across multiple systems, making it difficult to maintain accurate and up-to-date records. With this integration, you get one reliable source of truth.

## Growth opportunities unlocked

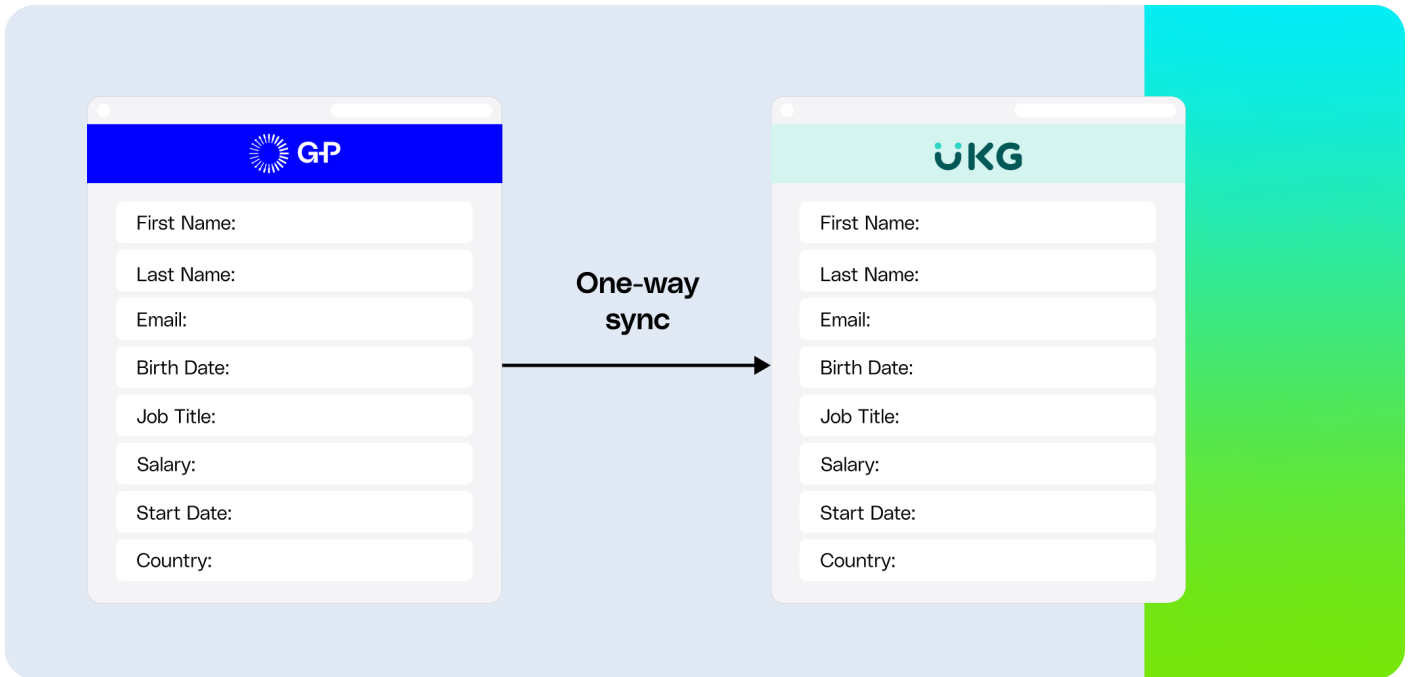

Through our integration with UKG Pro, you can easily manage and analyze data for your global teams. Save time and effort with this integration, so you can focus on other aspects of your business.

To immediately synchronize employee records with UKG Pro, activate the integration with these five simple steps:

1. Go to the Integrations section of the **G-P** platform.
2. Select the **UKG Pro** integration.
3. Input your **UKG Pro** and/or **G-P** credentials when prompted.
4. Map your data between the **G-P** platform and **UKG Pro**.
5. Complete the setup and view your **G-P** employee data in **UKG Pro**.

## Key features

- Input credentials for new professionals in the G-P platform and automatically synchronize their information with UKG Pro.
- Sync professional data one way from G-P to UKG Pro to keep information on employee records consistent and secure.
- Sync primary data fields, such as first and last name, email, birth date, start date, job title, salary, and country.
- Quickly export data for regular annual or monthly reporting with confidence that the information is always up to date.
- Our data syncs automatically with UKG One View for customers who have Connect. We help you deliver a “single pane of glass” view of our shared customers global workforce.

## Key benefits

 **Maintain one single source of truth.** Ensure your global HR data is always up to date without the need to manually verify every system.

 **Reduce onboarding time.** Create a new employee record in the G-P platform without repeating the process in UKG Pro.

 **Free up your HR team.** Automate data transfer between systems to keep your organizational chart accurate and updated.
