

G-P

dayforce

Hire and pay contractors anywhere in the world.

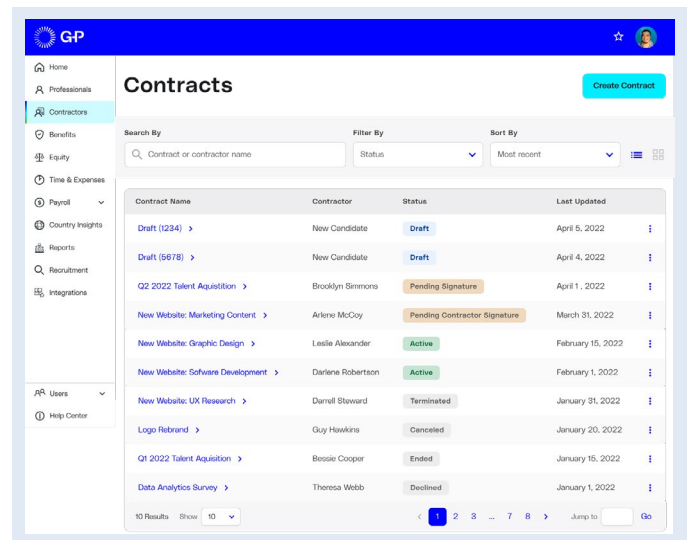

G-P Contractor is a G-P product embedded into the #1 SaaS-based Global Employment Platform™, supporting all your talent management needs in one place. It simplifies your global expansion operations, by allowing you to quickly build skilled contractor teams all around the world for both short- and long-term projects.

Key Benefits

One single source of truth to hire, onboard, manage, and pay contractors in +180 countries, in 150 currencies – all without requiring you to set up an entity or an international bank account.

Hire contractors in a few clicks, using our standardized global contract with an automated contracting approval workflow.

Avoid needing to use **multiple in-country experts**, varied payment platforms, and having many points of communication.

Low-Cost Global Expansion with Contractor Resources

Allow your contractors to generate **automated digital invoices** and manage their invoicing process within the G-P Global Employment Platform™.

Offer payment flexibility to your contractors with the ability to make **bi-monthly payments** to them in their contracted currency.

Ensure **platform compliance** and protection with our **enhanced security** and **authentication process**.
